Family Service Bureau Organized

The need for, and the work to be done, by a Crows Nest Pass Family Counselling Service was expressed by John R. Smith of the Provincial Government Social Planning Service, Edmonton, and Rev. P. B. O'Byrne, of the Catholic Family Service, Calgary, who addressed over 30 interested Pass persons at a meeting held at the Turtle Mountain Hotel Thursday evening, November 19.

Chairman was William Kovach, MLA, of Hillcrest, while Dean P. Tessier of St. Anne's Catholic Church, Blairmore, acted as secretary.

In his remarks Mr. Smith outlined some of the duties of such a service, pointing out that the three causes of need for such a service are basic needs such as clothing, shelter and medical care, which can be arranged through provincial and municipal legislation; rehabilitation cases which are casualties that have occurred through social, economic or mental reasons and thirdly, he added were the marginal welfare cases which, if caught in time, could be assisted.

Rev. O'Byrne gave a resume of some of the work done by the Catholic Family Service in Calgary and other areas.

He stated that the Calgary Diocese would provide some \$1500 towards the operation of the local Family Service Bureau and felt that about \$2,000 more would be needed to operate fairly satisfactorily.

Mrs. Connie Dunlop, District Nurse of the Chinook Health Unit, advised the meeting that Dr. Bower of Lethbridge, had signified his willingness to visit the Crows Nest Pass any time there were five or six with psychiatric problems.

Sister Leo Agnes of the Sisters of St. Martha of Blairmore, who is in charge of the Crows Nest Pass Family Service Bureau, re-

ported that although the office to have been occupied by the Bureau on October 1st, was not available on that date, considerable work had been done regardless.

The office above Robinson Stores in Blairmore has this week been occupied by the Bureau and office hours are from 9:30 a.m. to 11 a.m. Monday through Friday. A phone has now been installed, 562-2535.

Sister Leo Agnes advised that several cases had been referred to the local Bureau from Calgary, one from the Lethbridge office and one party came on their own.

Advice on how to handle the various cases had been obtained from the Supervisor in Calgary, whom Sister Leo Agnes had visited last week.

The meeting passed a motion that the previously named Board of Directors act as an executive to look into the matter of raising funds and drawing up a constitution.

Several new members included Mayor John Holyk of Coleman and Rev. Kas Iwassa of Blairmore, were elected to the Board of Directors.

A meeting of the executive will be held at the St. Anne's Catholic Church Rectory at 7:30 p.m. on December 2nd, when Harold Atkinson of Blairmore, and Joe Hanrahan of Coleman, will bring in suggestions on raising funds for the Bureau operation.

'Pass Industrial Development Committee Formed

A Crows Nest Pass Industrial Development committee was formed at a meeting held in the Isabelle Sellon School in Blairmore on Monday evening, November 22.

The committee, still in its formative stages, will have representatives from each of the Pass towns who will form the main body of the Central Crows Nest Pass unit.

One of the first activities of the newly-formed unit will be to meet with Garry Gall, Regional Co-ordinator of Area Development Agency, Department of Industry of Ottawa, Ont., who will be visiting the Crows Nest Pass on December 2nd.

Representing the Crows Nest Pass towns on the committee will be Mrs. Clemence Jepson, Tyce Vastenhout and Jim Fisher of Bellevue; Mary Gryczuk of Hillcrest; Ludwig Margatak of Frank; Alex Wells (chairman), Harold Atkinson, Max Brown, L. S. Richards and Walter Schiewe of Blairmore; Vance Caskey (chairman), John Holyk and Trevor A. Collisier of Coleman.

Coleman Legionaires Lose to Medicine Hat

The Medicine Hat Cantalins played host to the Coleman Legionaires on Saturday Nov. 28th and on the Sun. Nov 29th.

The Cantalins took the game Sat. with the score of 16 to 2. Such a score was due to First, the referees were said to have called off sides and similar calls pertaining to the game, but they did not call hooking, slashing, etc.; Second, the Coleman Club was short handed with only 9 players, due to car troubles; Third, the Cantalins put Fred Churla, Barry Fraser and Ken Megli out of playing commission.

Larry Plante came up behind Fred Churla and tapped him on the shoulder. When Fred Churla turned around Larry Plante hit him in the mouth. While Larry Plante was getting the better of Fred Churla it is said that one of the referees said "let them fight" but as Fred Churla was about to fight back the referee stopped it. Larry Plante and Fred Churla both received major penalties. Barry Fraser and Ken Megli were charged into the boards. Fred Churla, Barry Fraser, received 7 and 5 stitches respectively. Ken Megli received an injured hip. The approximate attendance was 100 people.

The game on Sunday was refereed after two new referees were brought in. The Medicine Hat team took this game with the score of 16 to 7. There were 7 penalties, Coleman receiving 2 and the Cantalins 5. The approximate attendance was 75 persons.

The Coleman Legionaires play Al Rollins and his U. of A. Dinosaurs on Fri. Dec. 4th and the Lethbridge Sugar Kings on Sat. Dec. 5th. The fans are asked to turn out and support their hockey club.

Coleman Lions Next Bingo, 19 Games

Coleman Lions announced this week that besides the regular 13 games at their next Bingo on Fri. Dec. 9th, they will play an extra 6 games for Turkeys, making a total of 19 games to be played. This will also be their last bingo until after the Yuletide holidays.

Christmas Card

The Coleman Athletic Association are sponsoring a Public Xmas Card which will be on display on the vacant lot just west of the Coleman Hardware Store. Any donations may be left at the Coleman Hardware.

Father Fleming Honored By Knights of Columbus

Rev. Denis E. Fleming, of the Holy Ghost Catholic Church in Coleman, was honored at a Communion breakfast of St. Joseph the Worker Council, Knights of Columbus, of the Crows Nest Pass.

Rev. Fleming was called upon after the breakfast and was presented with a going-away gift, to help him in establishing a new parish, St. Luke's, in the northwest part of Calgary.

Very Reverend P. A. Tessier, Dean of St. Anne's Parish in Blairmore, paid tribute to Rev. Fleming, stressing the amount of work the departing priest did, not only in his own parish, but in helping the young people of the Pass in hockey, baseball and a group of activities for both boys and girls.

He also took an active part in musical circles in the Pass.

Speaker at the breakfast was Rev. O'Kane of the Scarborough Foreign Mission Society, who is presently home on furlough after four years in Brazil.

The area served by Father O'Kane and two priests, is approximately 20,000 square miles, fronting for a distance of some 125 miles along the Amazon River.

The area, populated by about 100,000 persons, the largest town having 14,000 persons, is served by one doctor and five nurses.

Malnutrition, tropical diseases, and a lack of medical services and drugs keeps the life expectancy of the natives lower than 37 years.

Life is so primitive, he pointed out, that some of the aborigines do not know what a wheel is.

Father O'Kane stressed the fact that the soil in the forests is fabulously rich and with proper agricultural methods the Amazon basin could become the bread basket of all South and Central America.

The same evening the Council held an impressive memorial service for the late Otto Comin, a member of the Knights of Columbus, who died in a Pass swimming accident last summer.

Father S. Henke of Bellevue, gave the invocation and led the choir for the service. Rev. P. A. Tessier gave the Eulogy and reminded his audience that the late Otto Comin had, without considering himself, plunged into danger to help others. Father Tessier quoted from the Bible "Greater love than this hath no man, than that he would give his life for his friend".

Scooter Drivers Are Warned

Scooter and motor bike drivers will be issued no further warnings about traffic infractions. Chief of Police Ed Corson announced this week.

Chief Corson stated that he has received many complaints from motorists and pedestrians that the young people riding the scooters are not abiding by traffic rules.

Reports of scooter drivers cutting across the road in front of car traffic have been reported as well as turning without signals and many other infractions have also been noted.

According to the police many of the bikes are not licensed, and have improper lighting. Reports of a number of young car drivers driving down the main street three abreast is also being looked into by police who are going to "crack down" on the offenders.

Young people, shooting BB guns in town have also been brought to the attention of the police.

Fantin's Hillside Service was in charge.

Coleman Lions "Eye Glasses" Drive

The Coleman Lions Club annual drive for "Eye Glasses for India" is now being carried out.

Persons having old glasses that are not being used are urged to give the glasses to the Lions who will undertake the job to get them through the proper channels to persons in India.

The used glasses may be left at the Imperial Bank of Commerce, Salus Stores, Cell's Building and Supplies, Owen's Store or at either of the Coleman Stores.

When parking on a slope always leave the front wheels turned in the proper direction. If headed downhill the wheels should be turned sharply to the curb. If headed uphill, the wheels should be turned out.

Coleman Legionaires Win One, Lose One

Coleman faced off with the Taber Chiefs on Saturday, November 21st in Coleman arena and on boards, November 22, in the Fernie arena.

The Taber Chiefs won the game in Coleman with the score of 6-3. Scorers for Taber were Robert MacDonald and Harold Fleming, with two goals each. Father Chas. McLellan and Harvey Wilson with one goal each. The Taber net was hit Coleman by Wilford Ashmore getting two goals, and Ken Megli getting one.

Coleman goal-tender saved 50 shots and the Taber net-minder, Walter Hnatkowski saved 28 shots. There was a total of eight penalties—Taber getting six, and Coleman two. The approximate attendance was 350 people.

In Fernie the Coleman Legionaires changed the picture by edging Taber Chiefs 5 to 4.

Goals for Taber were scored by Brian Muskin with two, Dean Mylswyn and Father McLellan, each with one goal.

The light was blinked for Coleman by Frank Raymond, Garry Gentile, Albert Gottman, Wilford Ashmore and Fred Churla each getting one.

Frank Raymond opened the scoring in the first period by driving the puck from the red line. Taber pulled the goal-keeper in the last two minutes of the game, which proved fatal, when Fred Churla drove in the winning goal from the blue line. Taber goal-tender kicked out 38 shots, while Coleman's netminder stopped 42 shots.

There were 14 penalties passed out — Taber receiving five and Coleman nine. The approximate attendance was 340.

The supporters of the Coleman Legionaires are asked to turn out for the next game, when Coleman plays host to Al Rollins and his U. of A. Dinosaurs of Calgary on Friday, December 4.

Al Rollins is the spare goal-keeper for the Toronto Maple Leafs so this is going to be a very exciting game.

Al Krywolt Is Re-elected

Al Krywolt was unanimously returned as president of the Coleman Branch of the Royal Canadian Legion at a general meeting of the club held here last week.

Elected to assist President Krywolt with his duties are the following who were installed by Zone Commander Harry Jepson of Bellevue.

First vice-president, Tony Coccione; second vice-president, Ed Amell, and secretary - treasurer, Jim Radley.

The executive comprises B. Langille, Ed Amell, Glen Poulton, Stan Tarabula, John Slowichy, Walter Cichy, Tony Coccione and Jim Atkinson.

The members decided to hold a Christmas tree party for members' children, 12 years of age and under, and the committee in charge of this event will announce all plans when they are complete.

The Projects committee has announced that the new furnace had been installed in the Legion during the past month.

Methods of raising funds was discussed and the committee reported that a motor scooter, now on display at Vels Insurance, had been purchased and was to be drawn for on April 10th.

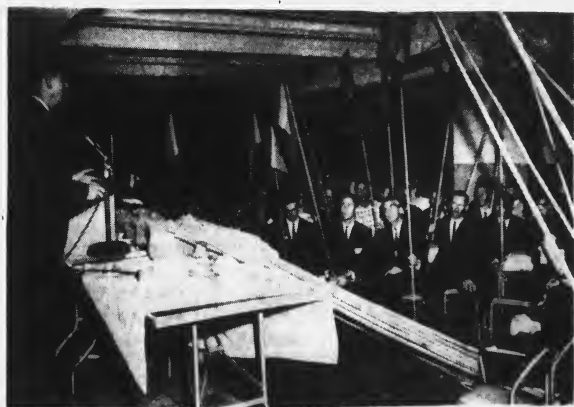

Proceeds from this venture will be used by the Legion to sponsor the Legionaires hockey team and other sports in season.

Former Coleman Resident Passes

Word was received of the death on November 19th of Mr. Thomas Anthony McCloy in Calgary, a former resident, age 58 years, beloved husband of Mrs. Helen McCloy.

Requiem High Mass was celebrated at St. Francis Church on November 21st at 10:30 a.m. Interment was in St. Mary's cemetery.

Mr. and Mrs. W. Knight from Cranbrook, B. C., Messrs. Louis, John and Michael Moore of Coleman attended the funeral.

At the annual meeting held recently in Edmonton, under the sponsorship of Extension Branch of the Alberta Department of Agriculture, leaders of Alberta 4-H clubs accepted the responsibility of promoting a slow vehicle safety campaign.

Mr. Paul Lawrence, General Manager of the Alberta Safety Council, outlined the safety program proposed and asked delegates to take over the sale and distribution of two safety devices

which have proved highly successful in reducing the number of highway accidents caused by slow moving vehicles in other areas. The first is a triangular shield in brown and green, fluorescent by day and reflective by night, which is attached to the vehicle by means of a bracket. The second, a red flag on a ten-foot pole, is visible to other traffic even when the slow moving vehicle itself is hidden by an elevation in the road.

Both devices are designed to warn high speed traffic when a vehicle travelling less than 25 miles per hour is on a public road, thereby eliminating one of the major causes of accidents involving slow moving vehicles.

Each delegate to the convention was presented with one of the warning flags on its ten-foot staff by Prof. B. T. Stefanson, Professor of Agricultural Engineering at the University of Alberta, and Chairman of the Farm Safety committee of the Alberta Safety Council.

OF MANY THINGS

(By Ambrose Hills)

Here's To Duff!

Duff Roblin, Manitoba's premier, has had quite a lot of puffs in the press of Canada because of the progress Manitoba has been making — but he's not getting any puffs these days from smokers like me. There may be a place on the continent where cigarettes cost more than they do in Manitoba, but I don't know where it is.

Why we smokers get so heavily taxed for the cost of government, I don't know. We don't share in the goodies handed out any more than the self-righteous non-smokers do. Surely Mr. Roblin isn't taxing us on the basis of good or bad habits? Maybe he is! He has also placed a new tax on our heating fuels, so it could be some puritanical urge on his part to punish those who like to be warm, comfortable and self-indulgent.

It galls me a little to have to criticize Duff Roblin. I have been a strong supporter of his, and I've admired his determination to encourage industrial expansion here in this keystone province. I fear, however, that he and some of his ministers have started to believe that they, personally, are going to drive this province at a hundred-mile-an-hour clip to Utopia. They can't do it. Mr. Roblin and his ministers ought to hold their horses a bit. They ought to start being Conservatives in spirit as well as in name.

Give Manitoba people good government, at the lowest possible cost, and the people themselves will get things done. The men sitting under that Legislative dome can do virtually nothing compared with the productive force of the people. It is the people who work, the politicians only talk, and spend.

OF MANY THINGS

(By Ambrose Hills)

Even The Best Of Us Are Bums

When a man dares to contemplate his own personal iniquities, even during times when he is not at his worst, he gets scared for the future of the world. The saints used to ask to be free from iniquity for a single day, but most of them agreed that even an hour or two of perfection was hard to attain.

Perhaps it is true that we are gradually evolving, and, as the centuries roll by, and grind and turn us, men will reach something closer to perfection. Meanwhile, I fear, even the best of us are a pretty punk lot.

I have no faith in the reform of man through social orders. We make a mistake if we think that this political party or that one is going to re-shape society and legislate us into charitable, highly moral citizens. Further, those who think well enough of themselves to try it are either complete hypocrites or they've never engaged in any serious self-examination.

The best that society can do for us is provide the freedom to improve, and leave our charity and other moral qualities in the hands of our Creator.

I've been listening to political speeches from the USA. They are much like the ones we have been getting in Canada. They are leading people to believe that governments can bestow all sorts of blessings. Governments can do no such thing, never have, and never will. Each man has his own struggle, and the sooner he stops looking to governments or others to win it for him, the better. What he needs most is freedom and opportunity to make his stand and fight his assigned rounds without detracting from the freedom of others to do the same thing.

One fine day the people will insist that governments get back to the job of governing and give up trying to play God to the populace!

Calgary Power Asks Co-operation Of Customers

The failure of two armature coils on Calgary Power's largest generating unit at the Wabamun Thermal Station has seriously impaired the Company's peak load generating capability. Despite this loss the Company has maintained service through inter-connections and shedding of interruptible loads.

The trouble to the Wabamun Unit occurred on Sunday morning, November 22nd and since then main-

tenance crews have been on a round-the-clock basis.

It is expected that a period of at least three weeks will be required for repairs. The situation has been rendered more difficult because of the fact that this has occurred at the time of the Company's annual peak load.

In order to augment its generating capability the Company is drawing power from its inter-connections with the Cities of Edmonton, Lethbridge and Medicine Hat, and the Canadian Utilities, East Kootenay and West Kootenay Power Companies' generating stations.

TOWN OF COLEMAN XMAS LIGHTING

PRIZES will be offered for the Best Xmas Lighting as in former years. Judging will be done on Sunday, December 27th, between the hours of 6.30 p.m. and 8.30 p.m.

T. A. COLLISTER,
Secretary-Treasurer.

TOWN OF COLEMAN TENDERS

Tenders for the Digging and Closing of Graves will be accepted up to and including Tuesday, December 15, 1964. All Tenders will be accepted at the Town Office.

T. A. COLLISTER,
Secretary-Treasurer.

TOWN OF COLEMAN NOTICE

Any Person causing Wilful Damage to any Town Property, including that of the Utilities, will be severely dealt with. No Further Warning will be given.

T. A. COLLISTER,
Secretary-Treasurer.

In addition, certain interruptible industrial customers have been cut back. Other large industrial customers are assisting by voluntarily cutting their requirements during the critical peak load period between 4:45 p.m. and 5:00 p.m., Monday through Friday.

As a result of these measures the Company has successfully maintained service during the cold weather this week. Every effort is being made to restore the generator to service and general power cuts are not anticipated.

However, extreme weather conditions could create higher than normal peak loads. Should this occur, it may be necessary to appeal to the Company's customers for voluntary reduction of their electrical usage over the peak load period. This would be by limiting the use of lighting and appliances during the period 4:45 p.m. to 6:00 p.m., Monday through Friday.

A sympathetic response to such an appeal would make possible uninterrupted power supply to the Company's customers during this emergent time.

Report From Parliament Hill

Nov. 20, 1964

(Lawrence E. Kindt, MP)

The proposed Canada Pension Plan is to be referred to a Special committee of Parliament for very intensive study, and it will, no doubt, be quite a long time before the Plan itself returns to the floor of the House of Commons.

While I do not wish to make any detailed comments on the proposed Pension Plan until I have had an opportunity of carefully examining it, there is one preliminary observation that I would like to make. It seems to me (and the same thought is shared by a good many MPs) that the term "Pension Plan" has a sort of magic sound and that everybody has been hypnotized into believing that some sort of miracle is going to be performed when the Bill is passed, and that some great and unexpected benefits are going to flow to everyone in Canada—this remains to be seen.

The big question that arises in my mind is, why are we going to the trouble of working out an extraordinarily complex Pension Plan, which may not cover everybody in Canada (and probably not those who will need it most) when we already have a very practical, efficient and inexpensive method of paying pensions to senior citizens?

It appears that this new plan will probably require a new army of civil servants to administer it, and, in addition, there will be all sorts of detailed complexities which will cause endless troubles for many years until all these bugs are ironed out.

The main "advantage" of the new plan, it seems, is that contributions which are paid in now for future benefits will provide enormous funds (billions of dollars) which will be used by the various provinces for carrying out their own pet projects.

From what we have heard so far it seems that the contributions to be made under the new plan will be quite discriminatory against certain age groups. In addition, if the cost of living continues to rise,

the pension (when you get it) may not be worth very much, as has been the case with regard to life insurance policies purchased many years ago.

At the moment I am still wondering why it would not be better to raise the present Old Age Pensions up to \$125 a month, either all at once or by stages and, if necessary, a special tax could be levied to pay for this. This would be similar to the "contributions" to be paid under the new plan. In this way there would be no need for the hiring of a whole new array of civil servants, no need to face a mountain of administrative problems which will last for a number of years, and should a steady inflation continue in the country over the years (and thus reduce the purchasing power of the pension) the pension can always be increased to make allowances for price rises. This would be almost impossible under the proposed new Pension Plan.

Perhaps after I have studied the new legislation some of these questions may be answered. I hope so.

Questions, Answers Re Employment

Q—Recently I was given an increase in my monthly salary which makes my yearly earnings more than \$5460 a year. The increase was retroactive for six months. My employer deducted unemployment insurance contributions from my pay during that six month period. Can I get a refund of those contributions?

A—No. Your yearly earnings did not exceed the wage ceiling of \$5460 per year until the actual date you received the salary increase. Therefore your employment was insurable during the six month period covered by retroactive salary increase.

Q—Why do people who are drawing benefits have to answer personal questions on the forms, in the office, and then again when an investigator from the Commission calls around at the house? For instance, if my wife is not living with me, I think that is my own business.

A—Questions asked at the time you filed your claim, which you may consider personal, are necessary to establish your entitlement to benefit. This information is held in strictest confidence.

The main purpose of interviewing a claimant at home is to verify that he is residing at his given address, that he is unemployed, capable of and available for work and fulfilling all conditions for entitlement to benefit.

If you are claiming your wife as a dependent and she is not residing with you, it is necessary to ask questions concerning her whereabouts and to what degree you support her in order to arrive at a decision concerning your entitlement to the dependency rate of benefit.

Q—An inspector from the Unemployment Insurance Commission called on me a while back, and showed me a paper filled out by my former employer as to the number of days I had worked and

the amount of money I had earned while I was claiming benefit. The information the employer gave was not correct. I realize now I should have declared my earnings, however small they were, but what I should like to know is, what protection do claimants have against wrong information given the Commission by employers?

A—If you do not agree with the information furnished to the Commission by your employer regarding your earnings and number of days worked you are given the opportunity to explain why you disagree during your interview with the inspector.

Any records you have kept concerning your earnings and days worked should be made available. The inspector will then interview the employer, and make a detailed examination of payroll records, cheque stubs, time cards, etc., in order to obtain the correct information.

It takes as many as 13,000 individual parts to build a passenger car, according to engineers at General Motors of Canada.

Turtle Mountain Hotel
Receive Golden Cup Award

The Golden Cup Award for ideal coffee was presented to Mrs. Kay Kerr, of Turtle Mountain Motor Hotel, Frank, by Mr. John Kubasek, National Vice-president of the Canadian Restaurant Association, on behalf of the Coffee Brewing Institute, Inc., New York City.

This award was officially presented Wednesday evening, November 25th in Lethbridge.

The Coffee Brewing Institute is a non-profit organization supported by the coffee growing countries under the International Coffee Agreement. Its purpose is to encourage, through research and education, the improvement of coffee as a beverage.

The Golden Cup Award was established in 1959 by the Coffee Brewing Institute to work as an incentive in upgrading beverage coffee and to act as a quality control program in maintaining a high quality beverage.

Samples of coffee are submitted

to the Institute and the award is given only to those establishments whose coffee samples register "ideal".

In discussing the award, Mrs. Kerr stated that they are fortunate in having pure mountain water and equipment of the right size to enable them to serve freshly brewed coffee at all times.

Mrs. Kerr also mentioned the fine co-operation of the coffee company. Coffee is now purchased in flavor sealed containers, ground to the specifications of the equipment used by the establishment, and packaged in exact measurements for every brew to insure uniformity.

C.N.P. Riding Club
"Round-Up" Season

The Crows Nest Pass Riding Club wound up the season with a banquet and dance in the Catholic hall on Saturday, November 7 when prizes and trophies for the year's events were presented to the winners, before a gathering of some 180 persons.

Club president Mrs. Amy Wright gave a resume of the season's events, praising the members for their faithful attendance at trail rides, gymkhanas and club events, despite much inclement weather. She reported that the effort to promote, encourage and enjoy good horsemanship was noted as the membership now stood at 92 riders. She stated that 15 gymkhanas were held during the season with competition in all events being very keen.

Three trail rides, including an

overnight stay at Race Horse Creek, formed part of the program that made the season successful.
